Professional Summary

First-year BBA student at Rishihood University with a demonstrated track record of building solutions at the intersection of business strategy and real-world impact. I have shipped two projects — a health-tech diagnostic kit for ASHA workers and an ONDC-enabled digital marketplace — under structured entrepreneurship programs, and I am currently developing a productivity tool from ideation to prototype. I thrive in ambiguous, fast-moving environments, move quickly from research to execution, and bring a founder's mindset to every team I join. Seeking a high-impact role where I can contribute to early-stage growth, market analysis, and operations while continuing to build.

Experience

Finanza — Finance & Investment Club

Rishihood University

Sep 2024 – Present

Sonipat, India

- Spearheaded end-to-end event operations for 4+ club activities, coordinating logistics, venue, and speaker outreach — achieving zero-delay execution across all sessions.
- Drove member engagement by curating and presenting investment case studies in weekly sessions, contributing to a 30%+ uptick in active participation.
- Collaborated with core team to streamline internal SOPs for event management, cutting coordination time by an estimated 20% for recurring activities.
- Gained hands-on exposure to equity analysis, financial modelling fundamentals, and real-world investment decision frameworks through practitioner-led sessions.

Projects

SeehatSathi

Health-Tech | Hardware + Community Health

- Conceptualised and developed a low-cost portable diagnostic kit enabling ASHA workers to screen women for neglected, high-prevalence health conditions in rural and semi-urban settings.
- Presented at Rishihood HealthHack 2025; received an honorary mention from a jury of healthcare and innovation professionals.
- Addressed a critical gap in last-mile healthcare delivery, targeting a population segment with limited access to formal diagnostic infrastructure.

MandiKar — ONDC-Enabled Digital Marketplace

Commerce-Tech | Wadhvani Program

- Built as part of the Wadhvani Global Entrepreneur Program; designed a scalable ONDC-integrated marketplace for small and mid-size sellers to access digital commerce infrastructure without platform dependency.
- Conducted market sizing, competitor analysis, and user research to shape the product roadmap and go-to-market approach.
- Developed pitch documentation and business model canvas covering unit economics, revenue streams, and network growth strategy.

Why I Save This? — Contextual Note-Taking Productivity Tool

SaaS | Productivity

- Designing a tool that preserves the intent and context behind saved notes, links, and resources — solving the core problem of decontextualised bookmarking.
- Currently in early-stage development: conducting user interviews, mapping pain points, and building a feature prototype.

Education

Bachelor of Business Administration (BBA)

Rishihood University

Expected Jan 2028

Sonipat, India

Higher Secondary Education — Science

Shri Ram Shiksha Mandir

Jan 2023

Delhi, India
